Jericho Security

Community Spotlight

At Jericho Security, we understand that our success is a direct result of the valuable contributions made by our partners, advisors, customers, employees, and investors. To recognize and appreciate the outstanding members of our community who have played a vital role in helping us achieve our goals, we highlight them in our Community Spotlight.

Esteban Romero
Partner

What specifically caught your attention about Jericho Security that motivated you to consider joining our community?
At ITQ ONE, we firmly believe in prioritizing People, Process, and Tech as the fundamental pillars to ensure our customers' security. Jericho Security embodies these principles, serving as a crucial element in retaliating against attacks and minimizing the attack surface. In today's dynamic landscape of rapidly advancing technologies and automation, AI-based Security Awareness Training plays a vital role in ensuring the overall safety and security of the organization.

Would you share any exceptional experiences working with Jericho Security?
Jericho Security is the only cloud-based Security Awareness Solution represented by ITQ ONE. Jericho Security's comprehensive training programs are powered by generative AI and are designed to empower users to identify and respond to potential threats in a proactive manner. Jericho Security recognizes that users play a crucial role in the cybersecurity ecosystem, and their awareness becomes even more critical as processes increasingly automate. Jericho Security helps mitigate the risks associated with potential cyber threats by fostering a proactive security culture within your organization.

By integrating People, Process, and Tech, we elevate your security posture, ensuring every team member is equipped to navigate the evolving threat landscape. Jericho Security safeguards your digital assets and contributes to your organization's resilience in the face of emerging threats. We know we are working with the future of Security Awareness.

Working with Jericho Security has been a blast! From the executive team to the entire sales and marketing team, we are enthusiastic about this partnership. We are investing significantly this year as Jericho Security's first partner in the United States and expanding rapidly into Latin America!

What would you say to prospects, partners, or advisors considering partnering with Jericho Security?
Social engineering is becoming a primary weapon for threat actors. Therefore, having a Security Awareness Platform in your organization is no longer an optional choice but a necessity. By utilizing Jericho Security, you are not just checking a box to comply with your cybersecurity insurance audit. Instead, you allow the tool to work for you, not vice versa. Leveraging AI is crucial to gain an advantage in this game. Jericho Security provides automated campaigns, risk scores, and data that can be used as a competitive advantage. You must see it to understand the benefits of partnering with Jericho Security!

How would you summarize Jericho Security in one sentence?
"Security Awareness on Steroids"

Let's learn something personal about you! What do you collect?
Tennis Trophies! Playing tennis is my hobby, and I am proud to have been a national champion last year representing Utah!

About Jericho Security

Jericho is using AI to fight AI. With unparalleled expertise in proprietary analytics and educational frameworks, we build our defenses to withstand the relentless scale and might of AI-unleashed attacks.
